

STICK WITH YOUR STORY, BOY

(Music: From Good Homes; Lyrics: Todd Sheaffer)

Boy let me educate your life
You will see struggle, you'll see strife
This is the first, so, it really hurts, but
You're gonna see it all your life

There will be pressure, yes, it's true
They're going to try and get to you
But through the fire, you keep on walking
With your head held high

Stick with your story, boy don't let it get to you
Stick with your story until your dyin' day

They're going to try and make you crack
But you spoke the truth, don't take it back
They're gonna work you, I must alert you
Just keep yourself on track

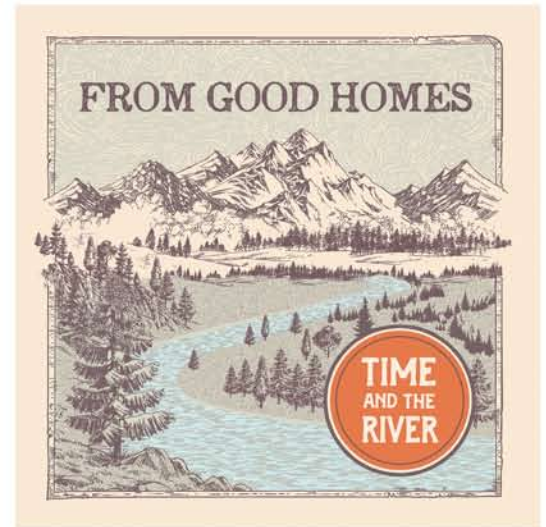

Stick with your story, boy don't let it get to you
Stick with your story until your dyin' day

They will interrogate your mind
To try and see what they can find
It isn't right – you hang tight
Don't let it dim your light

Miracles happen every day
Some people don't see it that way
You know the way, it's in your heart
You know the practice and your art

Stick with your story, boy don't let it get to you
Stick with your story until your dyin' day

Stick with your story...
