

True Love

(Music/Lyrics: Todd Sheaffer)

I chased a goat way up a mountain's steep
I chased a leopard through a jungle deep
I chased a monkey round a monkey tree
True love when will you shine on me?

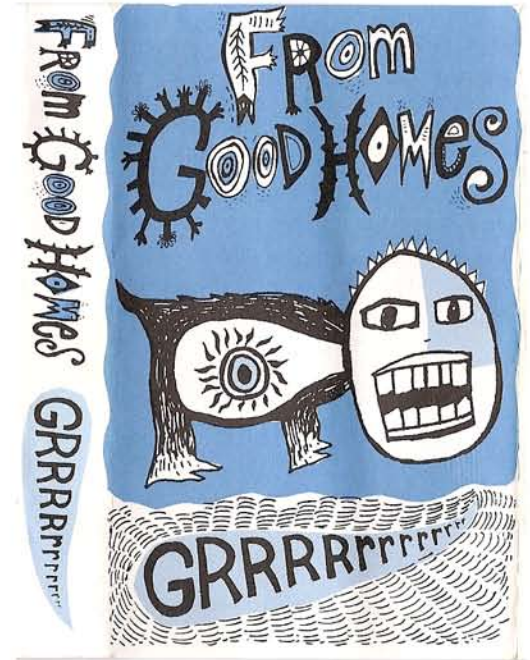

True love, when will you shine on me
True love when will you shine on me
I need some love, I need some harmony
True love when will you shine on me?

I've done a jig, I've done a boogaloo
I've done the jerk, I've done the kangaroo
I rode a roller coaster from sea to sea
True love when will you shine on me

True love when will you shine on me
True love when will you shine on me
I need some love, I need some harmony,
True love when will you shine on me?

Where art thou Juliet now hitherho (true love)
why are you hiding from ol Romeo (true love)
or am I victim of some trickery
True love when will you shine on me

True love when will you shine on me
True love when will you shiner on me
I need some love, I need some harmony
True love when will you shine on me
True love when will you shine on me
True love when will you shine on me
I need some love, I need some harmony
True love when will you
True love when will you
True love when will you shine on me
