## HOUSE ON A HILL

(Music: Todd Sheaffer, Brady Rymer/Lyrics: Todd Sheaffer)

this house on a hill sits perfectly still  
with treasures the rooms have been filled  
closets inside hide boxes inside  
with boxes inside of them still

but oh, there's something I still gotta know  
won't you follow me down to the road

this house on a hill sits perfectly still  
with treasures our lives have been filled  
memories inside hide memories inside  
with memories inside of them still

but oh, there's somethin' I still gotta know  
won't you follow me down to the road

this house on a hill can sit perfectly still  
we can play permanent host  
to all we have seen, all we have been  
to the ghost of a ghost of a ghost  
I can be king, you will be queen  
together we'll dance the ballroom  
while nothing inde of nothing inside  
of nothing inside of us blooms

but oh, there's somethin' I still gotta know  
won't you follow me down to the road
